

Swarfega® SUN PROTECT 30

SFP30 high protection UVA/B/C Skin Protect Cream

PRODUCT DESCRIPTION

Specialist cream with SPF30 protects against UV A, B and C rays, water resistant, absorbs quickly and easily into the skin with non-greasy after feel.

WHERE TO USE

For all outdoor trades people exposed to UVA and UVB sun rays and workers exposed to UVC rays created during industrial processes, such as welding, etc.

INSTRUCTIONS FOR USE

1. Apply liberally to clean, dry skin 10-15 minutes before exposure to the sun
2. Re-apply frequently, particularly when perspiring heavily.
3. Avoid Eye contact

Over-exposure to the sun is a serious health threat and should be avoided. Does not replace personal protective equipment.

	DESCRIPTION	BENEFITS
FEATURES	UVA protection	Conforms to The European Union recommendation for providing protection against harmful UVA rays.
	UVB 30 High protection	Sun Protection Factor of 30 increases the skin's natural protection against the sun's UVB rays by a factor of 30
	UVC protection	Provides additional protection against UVC rays as created artificially during certain industrial processes, such as arc welding. Does not replace personal protective equipment.
	Water resistant formula	Tested to retain SPF30 protection after 80 minutes in water.
	Non-greasy or sticky after feel	Non greasy after feel to encourage regular use and help limit the effect on dexterity with hand held tools
INGREDIENTS	Contains vitamin E, jojoba oil, cocoa butter, panthenol, caprylic/capric triglyceride and glycerin	Skin conditioners to help prevent drying and leave the skin feeling smooth after use.
	Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	Silicone-free	Reduces the risk of silicone related compatibility issues, if in contact with surfaces prior to the application of paint or surface coatings.
	Independently dermatologically tested	Patch testing shows the product to be non-irritating in use.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

PRODUCT SAFETY ASSURANCE

Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on body and face of adults aged 16 years and above when used as directed, meeting all regulatory requirements.

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 96 consecutive hour application models, shows the product to be non-irritating in use.

EFFICACY TESTS

Assessment of UVA-PF In vitro

Determined according to ISO 24443:2012.

UVB Efficacy Test in vivo

Using the International Standard for determining the sun protection factor (ISO 24444:2010) the SPF was determined along with the claim for water resistance.

UVC Efficacy Test in vitro

Using a modified COLIPA Guideline method, the trapezium rule was used to confirm that the product provides a distinctly lower transmission of UVC range >250nm.

WATER RESISTANCE TEST

Determination of the SPF factor according to ISO 24444:2010 (E) before and after water application to volunteers in a spa pool for 4 x 20 minutes, confirms an SPF30 and that this sun protection is water-resistant.

Caution: Applying an insufficient amount of product reduces the protective performance. Over-exposure to the sun is a serious health threat. Even sunscreen with a high SPF does not offer full protection against UV rays and does not replace the need to use/wear appropriate personal protective equipment and clothing. Avoid excessive UV exposure. Keep babies and young children out of direct sunlight and wear protective clothing. Avoid eye contact.
