

corpro[®]

a better fit

F

1100

Filter Range

Secure fit from any
rotation

Designed, tested and
manufactured in the UK

Exceptionally low
breathing resistance

**F
1100**

Can be worn with either

- HM1400 Half Mask
- FFM1600 Full Face Mask

Fit Check with Confidence

When covered, F1100 filters allow negative fit checks to be performed by wearers before entering hazardous environments.

User-Centric Design

Lightweight for comfort and low profile positioning for a better field of view.

High Viral Protection

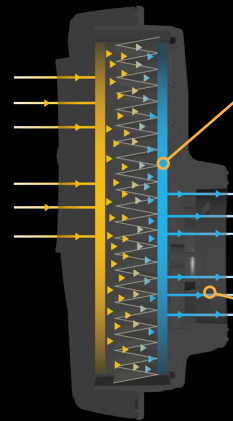

A viral filtration efficiency (VFE) of over 99.9999%^a.

'Easy-on' Mechanism

Our patented technology helps users to securely mount filters onto their masks from any orientation with ease.

High Capacity

Low pressure drop and high capacity materials to give complete protection and optimal longevity.

Current Range

With an extensive range of particulate, gas/vapour and combination filters, Corpro can offer a filtration solution for a wide variety of industrial environments. See our data sheet for more information.
