

BITREX® Fit Test Kit 0102

FIT TEST RESPIRATOR WEARERS

Test the face to facepiece seal of Moldex® particulate respirators. Check that respirators are being worn correctly and that they fit satisfactorily. Ensure that users are properly protected.

EASY TO USE

The Moldex® Fit Test Kit contains everything needed to conduct a qualitative fit test. Written instructions provide easy-to-use, step-by-step instructions. It's a simple pass/fail test. Taste sensitivity to BITREX® is checked. The wearer dons a Moldex® particulate respirator, the fit test hood is put on and the fit test solution is sprayed into the hood.

APPROVED FIT TEST METHOD

OSHA requires that a user be fit tested before wearing a respirator. The Moldex® BITREX® Fit Test Kit can help you meet respirator program fit test requirements established by OSHA 1910.134.

MOLDEX® TECHNICAL SUPPORT

Moldex® provides technical assistance including help with fit testing, a Train-the-Trainer Program, a manual on How To Set Up Your Respiratory Protection Program, plus a Toll-Free Technical Help line. Just call 800/421-0668 ext. 512/550 or 310/837-6500 ext. 512/550.
