Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758

SAFETY DATA SHEET

Date of issue/Date of revision

: 18 January 2024

Version : 1.03

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier

Product name	: PROGOLD WHITE SPIRIT
Product code	: 10106DUX015
EC number	: Not available.

REACH Registration number

Registration number 01-2119458049-33		Legal entity	
		-	
CAS number	: Not available.	1	
Product type : Liquid.			
Other means of : Ø0852428; 0085242 identification		29; 00852430	

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses	
Use in coatings-Consumer Use in coatings- Professional	

Product use

: Consumer applications, Professional applications.

1.3 Details of the supplier of the safety data sheet

PPG Coatings Nederland B.V. Amsterdamseweg 14 1422 AD Uithoorn Netherlands +31 (0)297 541234 Fax: +31 (0)297 541806

e-mail address of person : Product.Stewardship.EMEA@ppg.com responsible for this SDS

PPG Architectural Coatings UK Ltd,Huddersfield Road, Birstall, West Yorkshire WF17 9XA, Tel: +44 (0) 1924 354000 PPG Europe BV, Oceanenweg 2, 1047 BB Amsterdam, Netherlands. Tel: +31 (0) 204 075 050

1.4 Emergency telephone number

Supplier

+44 (0) 1924 354000 (Monday-Thursday 8.00-17.00, Friday 8.00-16.00 (GMT))

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : UVCB Classification according to UK CLP/GHS Flam. Liq. 3, H226 STOT SE 3, H336

STOT RE 1, H372 Asp. Tox. 1, H304 Aquatic Chronic 2, H411

The product is classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

Code : 10106DUX015 PROGOLD WHITE SPIRIT	5	Dat	e of issue	/Date of re	vision	: 18 Janu	ıary 2024
SECTION 2: Hazards	ic	entification					
2.2 Label elements							
Hazard pictograms	:				17 <u>7</u>		
Signal word	:	Danger					
Hazard statements		Flammable liquid and va May be fatal if swallowe May cause drowsiness of Causes damage to orga Toxic to aquatic life with	d and ente or dizzines ns throug	ss. h prolonged		exposure.	
Precautionary statements							
General	:	Keep out of reach of chi or label at hand.	ldren. If n	nedical advi	ce is needed	, have produ	uct container
Prevention	:	Keep away from heat, h No smoking. Use only c environment. Do not bro product.	outdoors o	or in a well-v	entilated are	a. Avoid rele	ease to the
Response	:	Collect spillage. IF INH, IF SWALLOWED: Imme vomiting.					
Storage	1	Store locked up. Store	n a well-v	entilated pla	ace. Keep co	ntainer tightl	y closed.
Disposal	:	Dispose of contents and and international regulat P102, P101, P210, P27 P405, P403 + P233, P50	ions. I, P273, F			-	
Supplemental label elements	:	Repeated exposure may	/ cause sł	kin dryness	or cracking.		
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	:	Not applicable.					
Special packaging requirem	nen	<u>ts</u>					
Containers to be fitted with child-resistant fastenings	:	Yes, applicable.					
Tactile warning of danger	:	Yes, applicable.					
2.3 Other hazards							
Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII	:	PBT P M/A N/A	B N/A	T Yes	vPvB N/A	vP N/A	vB N/A
Other hazards which do not result in classification	:	Prolonged or repeated o	ontact ma	ay dry skin a	I Ind cause irri	tation.	

Code : 10106DUX015 PROGOLD WHITE SPIRIT Date of issue/Date of revision

: 18 January 2024

SECTION 3: Composition/information on ingredients

3.1 Substances : UVCB					
Product/ingredient name	Identifiers	%	Classification	Туре	
naphtha (petroleum), hydrodesulphurized heavy Nota(s) P	EC: 265-185-4 CAS: 64742-82-1 Index: 649-330-00-2	80.6	Flam. Liq. 3, H226 STOT SE 3, H336 STOT RE 1, H372 (central nervous system (CNS)) Asp. Tox. 1, H304 Aquatic Chronic 2, H411 EUH066	[1]	
			See Section 16 for the full text of the H statements declared above.		

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

<u>Type</u>

[1] Constituent

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

SECTION 4: First aid measures

4.1 Description of first aid measures

an Booonption of mot and h	
Eye contact	 Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
Inhalation	: Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
Skin contact	: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.
Ingestion	: If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effect	uts de la constant de
Eye contact	: No known significant effects or critical hazards.
Inhalation	 Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.
Skin contact	: Defatting to the skin. May cause skin dryness and irritation.
Ingestion	: Can cause central nervous system (CNS) depression. May be fatal if swallowed and enters airways.
Over-exposure signs/sym	<u>ptoms</u>
Even a surfacet	

Eye contact : No specific data.

		· · · · · ·		
Code : 1010 PROGOLD WHITE S	6DUX015 SPIRIT	Date of issue/Date of revision	: 18 January 2024	
SECTION 4: Fi	rst aid measure	S		T
Inhalation	: Adverse s	ymptoms may include the following:		

Growsniess/ratigue dizziness/vertigo unconsciousness Skin contact : Adverse symptoms may include the following: irritation dryness cracking Ingestion : Adverse symptoms may include the following: nausea or vomiting 4.3 Indication of any immediate medical attention and special treatment needed Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately quantities have been ingested or inhaled.
dizziness/vertigo unconsciousness Skin contact : Adverse symptoms may include the following: irritation dryness cracking Ingestion : Adverse symptoms may include the following: nausea or vomiting
dizziness/vertigo unconsciousness Skin contact : Adverse symptoms may include the following: irritation dryness cracking Ingestion : Adverse symptoms may include the following:
dizziness/vertigo unconsciousness Skin contact : Adverse symptoms may include the following:
dizziness/vertigo
nausea or vomiting headache drowsiness/fatique

SECTION 5: Firefighting measures

5.1 Extinguishing media Suitable extinguishing media	: Use dry chemical, CO ₂ , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.

5.2 Special hazards arising from the substance or mixture

	-	
Hazards from the substance or mixture	:	Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous combustion products	:	Decomposition products may include the following materials: carbon oxides
5.3 Advice for firefighters		
Special protective actions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6: Accidental release measures

6.1 Personal precautions, prote	ective equipment and emergency procedures
For non-emergency : personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders :	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Code	: 10106DUX015	Date of issue/Date of revision	: 18 January 2024	
PROGOLD WHITE SPIRIT				

SECTION 6: Accidental release measures

6.2 Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.
6.3 Methods and material f	or containment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Do not breathe vapour or mist. Do not swallow. Avoid contact with eyes, skin and clothing. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Store between the following temperatures: 0 to 5°C (32 to 41°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

See Section 1.2 for Identified uses.

English (GB)

Code : 10106DUX015 PROGOLD WHITE SPIRIT Date of issue/Date of revision

: 18 January 2024

SECTION 7: Handling and storage

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

Occupational exposure limits

No exposure limit value known.

Recommended monitoring	1	Reference should be made to appropriate monitoring standards. Reference to
procedures		national guidance documents for methods for the determination of hazardous
-		substances will also be required.

DNELs/DMELs

PNECs

No PNECs available

8.2 Exposure controls	
Appropriate engineering controls	: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapour or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
Individual protection meas	ures
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Chemical splash goggles.
Skin protection	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. When prolonged or frequently repeated contact may occur, a glove with a protection class of 6 (breakthrough time greater than 480 minutes according to EN 374) is recommended. When only brief contact is expected, a glove with a protection class of 2 or higher (breakthrough time greater than 30 minutes according to EN 374) is recommended. The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.

English (GB)	United Kingdom (UK)	6/29

Code	: 10106DUX015	Date of issue/Date of revision	: 18 January 2024
PROGOLD WHITE SPIRIT			

SECTION 8: Exposure controls/personal protection

Gloves	: For prolonged or repeated handling, use the following type of gloves:
Body protection	 Recommended: nitrile rubber thickness >= 0.55 mm - polyvinyl alcohol (PVA) - Viton® Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Use with adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Wear a respirator conforming to EN140. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Mask type: full-face mask half-face mask Filter type: organic vapour filter (Type A) particulate filter P3 Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

9.1 Information on basic physical and chemical properties

English (CP)	United Kingdom (UK) 7/20
Vapour density	: Highest known value: 4.4 (Air = 1) (nonane). Weighted average: 4.24 (Air = 1)
Relative density	: 0.77
Vapour pressure	: Not available.
Partition coefficient: n-octanol/ water	: Not applicable.
Miscible with water	: No.
cold water	Not soluble
Media	Result
Solubility(ies)	
Viscosity	: Kinematic (40°C): <14 mm²/s
	Not applicable. insoluble in water.
pH	: Not applicable.
Auto-ignition temperature	: Not available.
Flash point	: Closed cup: 40°C (104°F)
Upper/lower flammability or explosive limits	: Greatest known range: Lower: 1.4% Upper: 7.6% (Naphtha (petroleum), hydrodesulfurized heavy)
Flammability (solid, gas)	: liquid
Initial boiling point and boiling range	: 150°C (302°F)
Melting point/freezing point	: May start to solidify at the following temperature: -43.77°C (-46.8°F) This is based on data for the following ingredient: 1,2,4-trimethylbenzene. Weighted average: -63.78°C (-82.8°F)
Odour threshold	: Not available.
Odour	: Hydrocarbon. [Slight]
Colour	: Clear.
Physical state	: Liquid.
Appearance Physical state	: Liquid

Code : 10106DUX	015 Date of issue/Date	of revision : 18 January 2024	
PROGOLD WHITE SPIRIT			

SECTION 9: Physical and chemical properties

Explosive properties	: The product itself is not explosive, but the formation of an explosible mixture of vapour or dust with air is possible.
Oxidising properties Particle characteristics	: Product does not present an oxidizing hazard.
Median particle size	: Not applicable.

SECTION 10: Stability and reactivity **10.1 Reactivity** : No specific test data related to reactivity available for this product or its ingredients. **10.2 Chemical stability** : The product is stable. : Under normal conditions of storage and use, hazardous reactions will not occur. 10.3 Possibility of hazardous reactions 10.4 Conditions to avoid : When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. **10.5 Incompatible materials** : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids. **10.6 Hazardous** : Depending on conditions, decomposition products may include the following decomposition products materials: carbon oxides

SECTION 11: Toxicological information

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	: Yes.

Disclaimer

The information contained in this data sheet is based on present scientific and technical knowledge. The purpose of this information is to draw attention to the health and safety aspects concerning the products supplied by us, and to recommend precautionary measures for the storage and handling of the products. No warranty or guarantee is given in respect of the properties of the products. No liability can be accepted for any failure to observe the precautionary measures described in this data sheet or for any misuse of the products.

Annex to the extended Safety Data Sheet (eSDS)

Identification of the substance or mixture

Consumer

Product definition	:	UVCB
Code	:	10106DUX015
Product name	:	PROGOLD WHITE SPIRIT
Section 1 - Title		
Short title of the exposure scenario	:	919-446-0 Use in coatings-Consumer
List of use descriptors	:	Identified use name: Use in coatings-Consumer Substance supplied to that use in form of: As such Sector of end use: SU21 Subsequent service life relevant for that use: No. Environmental Release Category: ERC08a, ERC08d Market sector by type of chemical product: PC09a
Environmental contributing scenarios	:	
Health Contributing scenarios	:	Adhesives, sealants Anti-freeze and de-icing products Biocidal products Non-metal surface treatment products Ink and toners Leather treatment products Lubricants, greases, release products Polishes and wax blends Textile dyes and impregnating products Coatings and paints, thinners, paint removers Fillers, putties, plasters, modelling clay Finger paints
Number of the ES	:	1
Industry Association	:	CEPE
Processes and activities covered by the exposure scenario	:	Covers the use in coatings (paints, inks, adhesives, etc) including exposures during use (including product transfer and preparation, application by brush, spray by hand or similar methods) and equipment cleaning. Covers the use of formulated lubricants in closed and open systems including transfer operations, operation of engines and similar articles, reworking on reject articles, equipment maintenance and disposal of waste oil.

Section 2 - Exposure controls

olling environmental exposure for 1:
: Substance is complex UVCB. Predominantly hydrophobic
: Maximum daily site tonnage 6 kg/day
: Continuous release Emission days 365 days per year
: Local freshwater dilution factor: 10 Local marine water dilution factor: 100
: Release fraction to air from process (initial release prior to RMM): 0.985 Release fraction to wastewater from process (initial release prior to RMM): 0.01 Release fraction to soil from process (initial release prior to RMM): 0.005

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings-Consume
Conditions and measures	: Estimated substance removal from wastewater via municipal sewage treatment: 93.7%
related to sewage treatment plant	Maximum allowable site tonnage (M_{Safe}) based on release following total wastewater treatment removal: 1900 kg/day
Conditions and measures	Assumed domestic sewage treatment plant flow: 2000 m ³ /d
related to external treatment of waste for disposal	: External treatment and disposal of waste should comply with applicable local and/or national regulations.
Conditions and measures related to external recovery of waste	: External recovery and recycling of waste should comply with applicable local and/or national regulations.
Contributing scenario contro	lling consumer exposure for 2: Adhesives, sealants
Concentration of substance in mixture or article	: Unless otherwise stated. Covers concentrations up to 30%
Physical state	: liquid Vapour pressure 231 Pa
Amounts used	: Unless otherwise stated.
	Covers use up to 75g
	Covers skin contact area up to 35.73 cm ²
	Glues, hobby use- Covers use up to 9 g Glues DIY-use (carpet glue, tile glue, wood parquet glue)- Covers use up to 6390 g- Covers skin contact area up to 110 cm ² Glue from spray- Covers use up to 85.05 g
Frequency and duration of use/exposure	: Unless otherwise stated. Covers use up to 365 days per year Covers use up to 1 uses per day Covers exposure up to 1 h/event Glues, hobby use- Covers exposure up to 4 h/event
	Glues DIY-use (carpet glue, tile glue, wood parquet glue)- Covers use up to 1 days per year- Covers exposure up to 6 h/event Glue from spray- Covers use up to 6 days per year- Covers exposure up to 4 h/even
Other given operational conditions affecting consumers exposure	: Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation.
Conditions and measures related to information and behavioural advice to	: No specific risk management measure identified beyond those operational conditions stated.
consumers Conditions and measures rel	ated to personal protection and hygiene
-	Iling consumer exposure for 3: Anti-freeze and de-icing products
Concentration of substance in mixture or article	: Washing car window- Covers concentrations up to 1 % Pouring into radiator- Covers concentrations up to 10 % Lock de-icer- Covers concentrations up to 50 %
Physical state	: liquid Vapour pressure 231 Pa
Amounts used	 Unless otherwise stated. Washing car window- Covers use up to 0.5 g Pouring into radiator- Covers use up to 2000 g- Covers skin contact area up to 428
	cm ²
Frequency and duration of	Lock de-icer- Covers use up to 4 g- Covers skin contact area up to 214.4 cm ² Unless otherwise stated.
use/exposure	Covers use up to 365 days per year Covers use up to 1 uses per day Washing car window- Covers exposure up to 0.02 h/event Pouring into radiator- Covers exposure up to 0.17 h/event
	Lock de-icer- Covers use up to 0.25 h/event
Other given operational conditions affecting consumers exposure	

elate	No specific risk management measure identified beyond those operational conditions stated.
ollir	ed to personal protection and hygiene
•	ig consumer exposure for 4: Biocidal products
:	Laundry and dish-washing products and Cleaners, liquids (all purpose cleaners, sanitary products, floor cleaners, glass cleaners, carpet cleaners, metal cleaners)- Covers concentrations up to 5 % Cleaners, trigger sprays (all purpose cleaners, sanitary products, glass cleaners)- Covers concentrations up to 15 %
:	liquid Vapour pressure 231 Pa
:	Unless otherwise stated. Laundry and dish-washing products- Covers use up to 15 g- Covers skin contact area up to 857.5 cm ² Cleaners, liquids (all purpose cleaners, sanitary products, floor cleaners, glass cleaners, carpet cleaners, metal cleaners)- Covers use up to 27 g- Covers skin contact area up to 857.5 cm ² Cleaners, trigger sprays (all purpose cleaners, sanitary products, glass cleaners)- Covers use up to 35 g- Covers skin contact area up to 428 cm ²
:	Unless otherwise stated. Covers use up to 1 uses per day Laundry and dish-washing products- Covers use up to 365 days per year- Covers exposure up to 0.5 h/event Cleaners, liquids (all purpose cleaners, sanitary products, floor cleaners, glass cleaners, carpet cleaners, metal cleaners)- Covers use up to 128 days per year- Covers exposure up to 0.33 h/event Cleaners, trigger sprays (all purpose cleaners, sanitary products, glass cleaners)- Covers use up to 128 days per year- Covers use up to 0.17 h/event
:	Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation.
:	No specific risk management measure identified beyond those operational conditions stated.
elate	ed to personal protection and hygiene
ollir	ig consumer exposure for 5: Non-metal surface treatment products
	Unless otherwise stated. Waterborne wall paint- Covers concentrations up to 1.5 % High solid paint Waterborne paint- Covers concentrations up to 27.5 % Aerosol spray can and Removers (paint-, glue-, wall paper-, sealant-remover)-
:	Covers concentrations up to 50 % liquid Vapour pressure 231 Pa
:	Unless otherwise stated. Waterborne wall paint- Covers use up to 2760 g- Covers skin contact area up to 428.75 cm ² High solid paint Waterborne paint- Covers use up to 744 g- Covers skin contact area up to 428.75 cm ² Aerosol spray can- Covers use up to 215 g Removers (paint-, glue-, wall paper-, sealant-remover)- Covers use up to 491 g- Covers skin contact area up to 857.5 cm ²
:	Unless otherwise stated. Covers use up to 1 uses per day Waterborne wall paint- Covers use up to 4 days per year- Covers exposure up to 2.2 h/event High solid paint Waterborne paint- Covers use up to 6 days per year- Covers exposure up to 2.2 h/event Aerosol spray can- Covers use up to 2 days per year- Covers exposure up to 0.33 h/ event
	: : elate ollir : :

PROGOLD WHITE SPIRIT	919-446-0 Use in coa	tings-Consumer
	Removers (paint-, glue-, wall paper-, sealant-remover)- Covers use ear- Covers exposure up to 2 h/event	up to 3 days per
Other given operational conditions affecting consumers exposure	Inless otherwise stated, assumes use as ambient temperatures in a Covers use under typical household ventilation. Aerosol spray can- Covers use in a one car garage (34 m³) under ty Covers use in room size of 34 m³	
Conditions and measures related to information and behavioural advice to consumers	lo specific risk management measure identified beyond those opera onditions stated.	ational
Conditions and measures re	to personal protection and hygiene	
Contributing scenario contro	consumer exposure for 6: Ink and toners	
Concentration of substance in mixture or article	Inless otherwise stated. Covers concentrations up to 10 %	
Physical state	quid ⁄apour pressure 231 Pa	
Amounts used	Inless otherwise stated. Covers use up to 40 g Covers skin contact area up to 71.4 cm²	
Frequency and duration of use/exposure	Inless otherwise stated. Covers use up to 365 days per year Covers use up to 1 uses per day Covers exposure up to 2.2 h/event	
Other given operational conditions affecting consumers exposure	Inless otherwise stated, assumes use as ambient temperatures in a Covers use under typical household ventilation.	a 20 m³ room.
Conditions and measures related to information and behavioural advice to consumers	lo specific risk management measure identified beyond those opera onditions stated.	ational
Conditions and measures re	to personal protection and hygiene	
Contributing scenario contro	consumer exposure for 7: Leather treatment products	
Concentration of substance in mixture or article	Inless otherwise stated. Covers concentrations up to 50 %	
Physical state	quid ⁄apour pressure 231 Pa	
Amounts used	Inless otherwise stated. Covers use up to 56 g Covers skin contact area up to 430 cm²	
Frequency and duration of use/exposure	Unless otherwise stated. Covers use up to 1 uses per day Polishes, wax/cream (floor, furniture, shoes)- Covers use up to 29 d Covers exposure up to 1.23 h/event Polishes, spray (furniture, shoes)- Covers use up to 8 days per year- exposure up to 0.33 h/event	
Other given operational conditions affecting consumers exposure	Inless otherwise stated, assumes use as ambient temperatures in a Covers use under typical household ventilation.	a 20 m³ room.
Conditions and measures related to information and behavioural advice to consumers	lo specific risk management measure identified beyond those opera onditions stated.	ational
	to personal protection and hygiene	

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings-Consume
Contributing scenario contro	biling consumer exposure for 8: Lubricants, greases, release products
Concentration of substance in mixture or article	 Unless otherwise stated. Liquids- Covers concentrations up to 100 % Pastes- Covers concentrations up to 20 % Sprays- Covers concentrations up to 50 %
Physical state	: liquid Vapour pressure 231 Pa
Amounts used	 Unless otherwise stated. Liquids- Covers use up to 2200 g- Covers skin contact area up to 468 cm² Pastes- Covers use up to 34 g- Covers skin contact area up to 468 cm² Sprays- Covers use up to 73 g- Covers skin contact area up to 428.75 cm²
Frequency and duration of use/exposure	: Unless otherwise stated. Covers use up to 1 uses per day Liquids- Covers use up to 4 days per year- Covers exposure up to 0.17 h/event Pastes- Covers use up to 10 days per year- Covers exposure up to 4 h/event Sprays- Covers use up to 6 days per year- Covers exposure up to 0.17 h/event
Other given operational conditions affecting consumers exposure	 Unless otherwise stated, assumes use as ambient temperatures in a 20 m³ room. Covers use under typical household ventilation. Liquids- Covers use in a one car garage (34 m³) under typical ventilation. Covers use in room size of 34 m³
Conditions and measures related to information and behavioural advice to consumers	: No specific risk management measure identified beyond those operational conditions stated.
Conditions and measures re	lated to personal protection and hygiene
Contributing scenario contro	olling consumer exposure for 9: Polishes and wax blends
Concentration of substance in mixture or article	: Unless otherwise stated. Covers concentrations up to 50 %
Physical state	: liquid Vapour pressure 231 Pa
Amounts used	 Unless otherwise stated. Covers skin contact area up to 430 cm² Polishes, wax/cream (floor, furniture, shoes)- Covers use up to 142 g Polishes, spray (furniture, shoes)- Covers use up to 35 g
Frequency and duration of use/exposure	 Unless otherwise stated. Covers use up to 1 uses per day Polishes, wax/cream (floor, furniture, shoes)- Covers use up to 29 days per year-Covers exposure up to 1.23 h/event Polishes, spray (furniture, shoes)- Covers use up to 8 days per year-Covers exposure up to 0.33 h/event
Other given operational conditions affecting consumers exposure	: Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation.
Conditions and measures related to information and behavioural advice to consumers	: No specific risk management measure identified beyond those operational conditions stated.
Conditions and measures re	lated to personal protection and hygiene
Contributing scenario contro Concentration of substance in mixture or article	 Iling consumer exposure for 10: Textile dyes and impregnating products Unless otherwise stated. Covers concentrations up to 10 %
Physical state	: liquid Vapour pressure 231 Pa
Amounts used	 Unless otherwise stated. Covers use up to 115 g Covers skin contact area up to 857.5 cm²

PROGOLD WHITE SPIRIT		919-446-0 Use in coatings-Consumer
Frequency and duration of use/exposure	:	Unless otherwise stated. Covers use up to 365 days per year Covers use up to 1 uses per day Covers exposure up to 1 h/event
Other given operational conditions affecting consumers exposure	:	Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation.
Conditions and measures related to information and behavioural advice to consumers Conditions and measures re		No specific risk management measure identified beyond those operational conditions stated.
Concentration of substance in mixture or article		Waterborne wall paint- Covers concentrations up to 1.5 % High solid paint- Covers concentrations up to 27.5 % Aerosol spray can- Covers concentrations up to 50 % Removers (paint-, glue-, wall paper-, sealant-remover)- Covers concentrations up to 100 %
Physical state	:	liquid Vapour pressure 231 Pa
Amounts used	:	Unless otherwise stated. Waterborne wall paint- Covers use up to 2760 g- Covers skin contact area up to 428.75 cm ² High solid paint- Covers use up to 744 g- Covers skin contact area up to 428.75 cm ² Aerosol spray can- Covers use up to 215 g Removers (paint-, glue-, wall paper-, sealant-remover)- Covers use up to 491 g- Covers skin contact area up to 857.7 cm ²
Frequency and duration of use/exposure	:	Unless otherwise stated. Covers use up to 1 uses per day Waterborne wall paint- Covers use up to 4 days per year- Covers exposure up to 2.2 h/event High solid paint- Covers use up to 6 days per year- Covers exposure up to 2.2 h/ event Aerosol spray can- Covers use up to 2 days per year- Covers exposure up to 0.33 h/ event Removers (paint-, glue-, wall paper-, sealant-remover)- Covers use up to 3 days per year- Covers exposure up to 2 h/event
Other given operational conditions affecting consumers exposure	:	Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation. Aerosol spray can- Covers use in a one car garage (34 m ³) under typical ventilation. Covers use in room size of 34 m ³
Conditions and measures related to information and behavioural advice to consumers	:	No specific risk management measure identified beyond those operational conditions stated.
Conditions and measures re	late	d to personal protection and hygiene
Contributing scenario contro	ollir	g consumer exposure for 12: Fillers, putties, plasters, modelling clay
Concentration of substance in mixture or article	:	Fillers and putty and Plasters and floor equalisers- Covers concentrations up to 2 % Modelling clay- Covers concentrations up to 1%
Physical state	;	liquid Vapour pressure 231 Pa
Amounts used	:	Unless otherwise stated. Fillers and putty- Covers use up to 85 g- Covers skin contact area up to 35.73cm ² Plasters and floor equalisers- Covers use up to 13800 g- Covers skin contact area up to 857.5 cm ² Modelling clay- Covers skin contact area up to 254.4 cm ² - For each use event, assumes swallowed amount of 1 g
1		

PROGOLD WHITE SPIRIT		919-446-0 Use in coatings-Consumer
Frequency and duration of use/exposure	:	Unless otherwise stated. Covers use up to 1 uses per day Fillers and putty- Covers use up to 12 days per year- Covers exposure up to 4 h/ event Plasters and floor equalisers- Covers use up to 12 days per year- Covers exposure up to 2 h/event Modelling clay- Covers use up to 365 days per year
Other given operational conditions affecting consumers exposure	:	Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation.
Conditions and measures related to information and behavioural advice to consumers	:	No specific risk management measure identified beyond those operational conditions stated.
Conditions and measures rel	ate	ed to personal protection and hygiene
Contributing scenario contro	ollir	ng consumer exposure for 13: Finger paints
Concentration of substance in mixture or article	:	Unless otherwise stated. Covers concentrations up to 50 %
Physical state	:	liquid Vapour pressure 231 Pa
Amounts used	:	Unless otherwise stated. For each use event, assumes swallowed amount of 1.35 g Covers skin contact area up to 254.4 cm ²
Frequency and duration of use/exposure	:	Unless otherwise stated. Covers use up to 365 days per year Covers use up to 1 uses per day
Other given operational conditions affecting consumers exposure	:	Unless otherwise stated, assumes use as ambient temperatures in a 20 m ³ room. Covers use under typical household ventilation.
Conditions and measures related to information and behavioural advice to consumers		Avoid using at a product concentration greater than 5 %
Conditions and measures rel	ate	ed to personal protection and hygiene

Section 3 - Exposure estimation and reference to its source

Website:	:	Not applicable.
Exposure estimation and ref	ere	nce to its source - Environment: 1:
Exposure assessment (environment):	:	Hydrocarbon Block Method (Petrorisk)
Exposure estimation and reference to its source	:	Not available.
Exposure estimation and ref	ere	nce to its source - Consumers: 2: Adhesives, sealants
Exposure assessment (human):	:	The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	:	Not available.
Exposure estimation and ref	ere	nce to its source - Consumers: 3: Anti-freeze and de-icing products
Exposure assessment (human):	:	The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	:	Not available.

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings-Consumer
Exposure estimation and re	ference to its source - Consumers: 4: Biocidal products
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and re	ference to its source - Consumers: 5: Non-metal surface treatment products
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Consumers: 6: Ink and toners
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and re	ference to its source - Consumers: 7: Leather treatment products
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and re	ference to its source - Consumers: 8: Lubricants, greases, release products
Exposure assessment (human):	 The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ret	ference to its source - Consumers: 9: Polishes and wax blends
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ret	ference to its source - Consumers: 10: Textile dyes and impregnating products
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Consumers: 11: Coatings and paints, thinners, paint
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Consumers: 12: Fillers, putties, plasters, modelling clay
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Consumers: 13: Finger paints
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.

Section 4 - Guidance to DU to evaluate whether he works inside the boundaries set by the ES

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings-Consumer
Environment	: Guidance is based on assumed operating conditions which may not be applicable to all sites; thus, scaling may be necessary to define appropriate site-specific risk management measures. Further details on scaling and control technologies are provided in SpERC factsheet (http://cefic.org/en/reach-for-industries-libraries.html).
Health	 Predicted exposures are not expected to exceed the DN(M)EL when the risk management measures/operational conditions outlined in section 2 are implemented. Where other risk management measures/operational conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

Additional good practice advice beyond the REACH CSA

Environment	: Not available.
Health	: Not available.

Professional

Identification of the substance or mixture			
Product definition	:	UVCB	
Code	:	10106DUX015	
Product name	;	PROGOLD WHITE SPIRIT	
Section 1 - Title			
Short title of the exposure scenario	:	919-446-0 Use in coatings- Professional	
List of use descriptors	:	Identified use name: Use in coatings- Professional Process Category: PROC01, PROC02, PROC03, PROC04, PROC05, PROC08a, PROC08b, PROC10, PROC13, PROC15, PROC11, PROC19 Substance supplied to that use in form of: As such Sector of end use: SU22 Subsequent service life relevant for that use: No. Environmental Release Category: ERC08a, ERC08d Market sector by type of chemical product: PC09a	
Environmental contributing scenarios	:		
Health Contributing scenarios	:	Transfer of substance or mixture (charging and discharging) at non-dedicated facilities Transfer of substance or mixture (charging and discharging) at dedicated facilities Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition Chemical production where opportunity for exposure arises Mixing or blending in batch processes Roller application or brushing Non industrial spraying Treatment of articles by dipping and pouring Use as laboratory reagent Manual activities involving hand contact	
Number of the ES	1	1	
Industry Association	1	CEPE	
Processes and activities covered by the exposure scenario	:	Covers the use in coatings (paints, inks, adhesives, etc) including exposures during use (including materials receipt, storage, preparation and transfer from bulk and semi-bulk, application by spray, roller, brush, spreader by hand or similar methods, and film formation), and equipment cleaning, maintenance and associated laboratory activities.	

Identification of the substance or mixture

Section 2 - Exposure controls

PROGOLD WHITE SPIRIT		919-446-0 Use in coatings- Professional
Contributing scenario contro		g environmental exposure for 1:
Product characteristics	:	Substance is complex UVCB. Predominantly hydrophobic
Amounts used	:	Maximum daily site tonnage 2.3 kg/day
Frequency and duration of use	:	Continuous release Emission days: 365
Environment factors not influenced by risk management	:	Local freshwater dilution factor: 10 Local marine water dilution factor: 100
Other conditions affecting environmental exposure	:	Release fraction to air from process (initial release prior to RMM): 0.98 Release fraction to wastewater from process (initial release prior to RMM): 0.01 Release fraction to soil from process (initial release prior to RMM): 0.01
Technical on-site conditions and measures to reduce or limit discharges, air emissions and releases to soil	:	Risk from environmental exposure is driven by soil. No wastewater treatment required. Treat on-site wastewater (prior to receiving water discharge) to provide the required removal efficiency of \geq (%): 0 If discharging to domestic sewage treatment plant, provide the required onsite wastewater removal efficiency of \geq (%): 0
Organisational measures to prevent/limit release from site	:	Prevent discharge of undissolved substance to or recover from onsite wastewater. Do not apply industrial sludge to natural soils. Sewage sludge should be incinerated, contained or reclaimed.
Conditions and measures related to sewage treatment	:	Estimated substance removal from wastewater via municipal sewage treatment: 93.7 %
plant		Total efficiency of removal from wastewater after on-site and off-site (municipal treatment plant) RMMs: 93.7 % Maximum allowable site tonnage (M _{Safe}) based on release following total wastewater treatment removal: 1900 Assumed domestic sewage treatment plant flow: 2000 m ³ /d
Conditions and measures related to external treatment of waste for disposal	:	External treatment and disposal of waste should comply with applicable local and/or national regulations.
Conditions and measures related to external recovery of waste	:	External recovery and recycling of waste should comply with applicable local and/or national regulations.
Contributing scenario contro discharging) at non-dedicated		g worker exposure for 2: Transfer of substance or mixture (charging and acilities
Concentration of substance in mixture or article		Covers percentage substance in the product up to 100 %.
Physical state	:	Liquid, vapour pressure < 0.5 kPa at Standard Temperature and Pressure
Frequency and duration of use/exposure	:	Covers daily exposures up to 8 hours
Other conditions affecting workers exposure	:	Assumes use at not more than 20°C above ambient temperature. Assumes a good basic standard of occupational hygiene is implemented
Product safety-related measures	:	No specific measures identified.
Conditions and measures rela	ate	d to personal protection, hygiene and health evaluation

Other conditions affecting workers exposure	 Assumes use at not more than 20°C above ambient temperature. Assumes a good basic standard of occupational hygiene is implemented
Product safety-related measures	: Outdoor-Indoor No specific measures identified.
Conditions and measures re	lated to personal protection, hygiene and health evaluation
Contributing scenario contro	olling worker exposure for 10: Non industrial spraying
Concentration of substance in mixture or article	: Covers percentage substance in the product up to 100 %.
Physical state	: Liquid, vapour pressure < 0.5 kPa at Standard Temperature and Pressure
Frequency and duration of use/exposure	: Covers daily exposures up to 8 hours
Other conditions affecting workers exposure	 Assumes use at not more than 20°C above ambient temperature. Assumes a good basic standard of occupational hygiene is implemented
Product safety-related measures	 Manual Spraying-Indoor Provide a good standard of controlled ventilation (10 to 15 air changes per hour). or Wear a respirator conforming to EN140.
	Manual Spraying-Outdoor Ensure operation is undertaken outdoors. Avoid carrying out activities involving exposure for more than 4 hours per day. or Ensure operation is undertaken outdoors. Wear a respirator conforming to EN140.
Conditions and measures re	lated to personal protection, hygiene and health evaluation
-	olling worker exposure for 11: Treatment of articles by dipping and pouring
Concentration of substance in mixture or article	: Covers percentage substance in the product up to 100 %.
Physical state	: Liquid, vapour pressure < 0.5 kPa at Standard Temperature and Pressure
Frequency and duration of use/exposure	: Covers daily exposures up to 8 hours
Other conditions affecting workers exposure	: Assumes use at not more than 20°C above ambient temperature. Assumes a good basic standard of occupational hygiene is implemented
Date of issue/Date of revisio	n : 2/20/2020 26/29

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings- Professional
Product safety-related measures	: Outdoor-Indoor Avoid manual contact with wet work pieces.
Conditions and measures re	lated to personal protection, hygiene and health evaluation
Contributing scenario contro	Iling worker exposure for 12: Use as laboratory reagent
Concentration of substance in mixture or article	: Covers percentage substance in the product up to 100 %.
Physical state	: Liquid, vapour pressure < 0.5 kPa at Standard Temperature and Pressure
Frequency and duration of use/exposure	: Covers daily exposures up to 8 hours
Other conditions affecting workers exposure	 Assumes use at not more than 20°C above ambient temperature. Assumes a good basic standard of occupational hygiene is implemented
Product safety-related measures	: No specific measures identified.
Conditions and measures re	lated to personal protection, hygiene and health evaluation
Contributing scenario contro	Iling worker exposure for 13: Manual activities involving hand contact
Concentration of substance in mixture or article	: Covers percentage substance in the product up to 100 %.
Physical state	: Liquid, vapour pressure < 0.5 kPa at Standard Temperature and Pressure
Frequency and duration of use/exposure	: Covers daily exposures up to 8 hours
Other conditions affecting workers exposure	 Assumes use at not more than 20°C above ambient temperature. Assumes a good basic standard of occupational hygiene is implemented
Product safety-related measures	: No specific measures identified.

Section 3 - Exposure estimation and reference to its source

Website:	:	Not applicable.
Exposure estimation and ref	ere	nce to its source - Environment: 1:
Exposure assessment (environment):	:	Hydrocarbon Block Method (Petrorisk)
Exposure estimation and reference to its source	:	Not available.
Exposure estimation and reference to its source - Workers: 2: Transfer of substance or mixture (charging and discharging) at non-dedicated facilities		
Exposure assessment (human):	:	The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	:	Not available.
Exposure estimation and reference to its source - Workers: 3: Transfer of substance or mixture (charging and discharging) at dedicated facilities		
Exposure assessment (human):	:	The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	:	Not available.

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings- Professional
	ference to its source - Workers: 4: Chemical production or refinery in closed of exposure or processes with equivalent containment conditions
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
	ference to its source - Workers: 5: Chemical production or refinery in closed casional controlled exposure or processes with equivalent containment
Exposure assessment (human):	 The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
	ference to its source - Workers: 6: Manufacture or formulation in the chemical cesses with occasional controlled exposure or processes with equivalent
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Workers: 7: Chemical production where opportunity for
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Workers: 8: Mixing or blending in batch processes
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	erence to its source - Workers: 9: Roller application or brushing
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	erence to its source - Workers: 10: Non industrial spraying
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	ference to its source - Workers: 11: Treatment of articles by dipping and pouring
Exposure assessment (human):	: The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.
Exposure estimation and ref	erence to its source - Workers: 12: Use as laboratory reagent
Exposure assessment (human):	 The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.

PROGOLD WHITE SPIRIT	919-446-0 Use in coatings- Professional
Exposure estimation and ref	erence to its source - Workers: 13: Manual activities involving hand contact
Exposure assessment (human):	 The ECETOC TRA tool has been used to estimate workplace exposures unless otherwise indicated.
Exposure estimation and reference to its source	: Not available.

Section 4 - Guidance to DU to evaluate whether he works inside the boundaries set by the ES

Environment	:	Guidance is based on assumed operating conditions which may not be applicable to all sites; thus, scaling may be necessary to define appropriate site-specific risk management measures.
		Required removal efficiency for wastewater can be achieved using onsite/offsite technologies, either alone or in combination.
		Required removal efficiency for air can be achieved using on-site technologies, either alone or in combination.
		Further details on scaling and control technologies are provided in SpERC factsheet (http://cefic.org/en/reach-for-industries-libraries.html).
Health	:	Predicted exposures are not expected to exceed the DN(M)EL when the risk management measures/operational conditions outlined in section 2 are implemented.
		Where other risk management measures/operational conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

Additional good practice advice beyond the REACH CSA

Environment	: Not available.
Health	: Not available.
