

BB128-5

Specification Sheet

GLASSWASH RINSE AID

USE

Suitable for use in automatic dishwashing machines

DESCRIPTION

A concentrated low foaming non-ionic detergent and stabilising agents.

FEATURES & BENEFITS

- Aids in rapid drying of crockery, cutlery and glasses ensuring a sparkling finish.

HOW TO USE

Ideally dispensed into AUTOMATIC GLASSWASHING MACHINES through an electronic dispenser. When rinsing by hand, rinse aid can be added to hand hot water at a dilution rate of 2.5 mls per 5 litres of water.
