

Urinal Screen

Biodegradable and highly fragranced with less plastic

The all new Jangro screen is another huge step forward in terms of urinal deodorising technology. With the same high fragrance load synonymous with Jangro urinal screens, it consistently outperforms many other 30 day urinal mats and best of all will keep walls, floors and trousers dry, thanks to the unique virtually 'zero splash' angled bristle design. The Jangro Urinal Screens feature the anti-splash technology on both sides of the screen, so the products cannot be installed incorrectly. At Jangro we're passionate about the environment and that's why, despite being one of the most fragrant 30 day urinal screens on the market, the New Jangro Urinal Screens also has a lower plastic content than before and whilst the product is 100% recyclable, it also contains the Ecopure™ additive for faster biodegradation should it find its way to landfill*. As with all Jangro urinal screens, beneficial bacteria help deodorise the drain below the surface and is also compatible with waterless urinals.

**Ecopure™ treated products show significantly accelerated biodegradation compared to untreated plastics. The Jangro Urinal Screen is currently being tested under plastic anaerobic biodegradation testing (ASTM D 5511) and after 482 days there is 30% biodegradation so based on previous lab results, expect the biodegradation will increase to between 50% and 70% biodegraded in 2 years. Final biodegradation results are affected by local environmental conditions*

At a glance:

- The same high fragrance load synonymous with Jangro urinal screens
- Contains the EcoPure® additive for faster biodegradation at landfill
- Less plastic – Fits more urinals than any previous generation of urinal screens
- Hundreds of 'splash-eliminating' slant bristles keep walls; floors; and trousers dry
- 'Anyway up' double-sided design ensures correct installation every time
- Contains beneficial bacteria to help deodorise the drain below the surface
- Compatible with waterless urinals
- Low VOC's
- 100% recyclable
- Easy to install

Fragrance	Part No.	Colour
Ocean Mist	BC206-OM	Teal
Mango	BC206-MG	Orange
Spiced Apple	BC206-SA	Red
Cotton Blossom	BC206-BC	Blue
Cucumber & Melon	BC206-CM	Green

Packed inners of 10 and outer cases of 60.
