

BF022-1 Organic Descaler 1 Litre

DESCRIPTION

A naturally derived cleaner and lime-scale remover for toilets and urinal surfaces for the effective removal of scale and surface staining.

FEATURES & BENEFITS

- Long lasting biodegradable formula that effectively cleans and clings to toilet bowls and urinals
- Naturally derived glucose and RSPO palm kernel oil derived surfactant for the descaling and cleaning of toilets, urinal bowls and associated pipework
- Combats scale build-up, unpleasant odours and pipework blockages, especially effective in areas with hard water
- Does not affect seals and is compatible with most materials, safe on all surfaces
- Does not sediment salts
- Natural product that is less hazardous than traditional corrosive chemicals
- Organic acid from the fermentation of cane or beet sugar

HOW TO USE

Apply undiluted to the toilet bowl, under the rim, urinal. Allow several minutes contact time. Agitate with toilet brush and flush with clean water.
