

# COSHH RISK ASSESSMENT

Jangro Laundry Chlorine Destainer (10 Litre)

Product Code: BP081-10

Warning

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 10 litre polythene containers in a cardboard carton.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original sealed container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof. Keep out of reach of children. Risk of spillage when diluting the product.	Ensure that the product is stored away securely. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
<b>USAGE</b>			
For use in conjunction with Jangro Fabric Liquid. Typical dosage rate 6-9ml per kilo of dry weight fabric, according to the odour and conditioning effect required. Always wash and rinse fabric after using Chlorine Destainer. Check the dilution rates on the label. Read manufactures instructions for material compatibility.	Product is a corrosive liquid and may be corrosive to metals. Causes skin irritation. Causes serious eye irritation. Very toxic to aquatic life with long lasting effects. Do NOT use together with other products. May release dangerous gases (chlorine). Inhalation may cause shortness of breath or cough.	Handle the containers with care. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Provide employees with PPE as follows: <ul style="list-style-type: none"> <li>• Protective overall</li> <li>• Safety glasses</li> <li>• Protective gloves</li> </ul> Ensure that operatives are aware of location of First Aid facilities.
<b>DISPOSAL</b>			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Wash hands thoroughly after handling. Avoid release to environment. If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if possible. Continue rinsing. If eye irritation persists: Get medical attention.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
