

LINE MARKER XYLENE FREE YELLOW

Page: 1

Compilation date: 05/01/2012

Revision date: 02/11/2021

Revision No: 3

## Section 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

#### Product name: LINE MARKER XYLENE FREE YELLOW

Synonyms: LMXFY

## 1.2. Relevant identified uses of the substance or mixture and uses advised against

## 1.3. Details of the supplier of the safety data sheet

Company name: Specialised Aerosols Company Limited

Carr Green Lane Mapplewell Barnsley South Yorkshire S75 6DY Tel: 01226 387101 Fax: 01226 387100 Email: sales@specialised-aerosols.co.uk

## 1.4. Emergency telephone number

Emergency tel: 07836317118

## Section 2: Hazards identification

#### 2.1. Classification of the substance or mixture

| Classification under CLP:       | Flam. Aerosol 1: H222; Eye Irrit. 2: H319; STOT SE 3: H336; -: EUH066; -: H229       |
|---------------------------------|--|
| Most important adverse effects: | Repeated exposure may cause skin dryness or cracking. Extremely flammable aerosol.   |
|                                 | Pressurised container: May burst if heated. Causes serious eye irritation. May cause |
|                                 | drowsiness or dizziness.   |

## 2.2. Label elements

| Label elements:    |   |
|--------------------|---|
| Hazard statements: | EUH066: Repeated exposure may cause skin dryness or cracking. |
|                    | H222: Extremely flammable aerosol.                            |
|                    | H229: Pressurised container: May burst if heated.             |
|                    | H319: Causes serious eye irritation.                          |
|                    | H336: May cause drowsiness or dizziness.                      |
| Hazard pictograms: | GHS02: Flame  |
|                    | GHS07: Exclamation mark                                       |
|                    |   |

**Page:** 2

| Signal words:             | Danger  |
|---------------------------|---|
| Precautionary statements: | P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition     |
|                           | sources. No smoking.  |
|                           | P211: Do not spray on an open flame or other ignition source.                       |
|                           | P251: Do not pierce or burn, even after use.  |
|                           | P280: Wear protective gloves/protective clothing/eye protection/face protection.    |
|                           | P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for          |
|                           | breathing.  |
|                           | P410+P412: Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 |
|                           | °F.   |
|                           |   |

2.3. Other hazards

Other hazards: In use, may form flammable / explosive vapour-air mixture.

PBT: This product is not identified as a PBT/vPvB substance.

# Section 3: Composition/information on ingredients

3.2. Mixtures

## Hazardous ingredients:

## N-BUTYL ACETATE

#### Section 4: First aid measures

#### 4.1. Description of first aid measures

| Skin contact: | Remove all contaminated clothes and footwear immediately unless stuck to skin.             |
|---------------|--|
|               | Drench the affected skin with running water for 10 minutes or longer if substance is still |
|               | on skin. Transfer to hospital if there are burns or symptoms of poisoning.                 |

- **Eye contact:** Bathe the eye with running water for 15 minutes. Transfer to hospital for specialist examination.
  - Ingestion: Do not induce vomiting. If conscious, give half a litre of water to drink immediately. If unconscious, check for breathing and apply artificial respiration if necessary. If unconscious and breathing is OK, place in the recovery position. Transfer to hospital as soon as possible.
  - Inhalation: Remove casualty from exposure ensuring one's own safety whilst doing so. If unconscious, check for breathing and apply artificial respiration if necessary. If unconscious and breathing is OK, place in the recovery position. If conscious, ensure the casualty sits or lies down. If breathing becomes bubbly, have the casualty sit and provide oxygen if available. Transfer to hospital as soon as possible.

## 4.2. Most important symptoms and effects, both acute and delayed

| Skin contact:                | There may be irritation and redness at the site of contact.                         |
|------------------------------|---|
| Eye contact:                 | There may be irritation and redness. Corneal burns may occur.                       |
| Ingestion:                   | Nausea and stomach pain may occur. There may be vomiting and diarrhoea. There may   |
|                              | be loss of consciousness. Convulsions may occur.                                    |
| Inhalation:                  | Exposure may cause coughing or wheezing. There may be congestion of the lungs       |
|                              | causing severe shortness of breath. There may be loss of consciousness. Convulsions |
|                              | may occur.  |
| Delayed / immediate effects: | Immediate effects can be expected after short-term exposure.                        |

## LINE MARKER XYLENE FREE YELLOW

#### 4.3. Indication of any immediate medical attention and special treatment needed

Immediate / special treatment: Not applicable.

### Section 5: Fire-fighting measures

#### 5.1. Extinguishing media

Extinguishing media: Carbon dioxide. Alcohol resistant foam.

#### 5.2. Special hazards arising from the substance or mixture

**Exposure hazards:** Extremely flammable. Vapour may travel considerable distance to source of ignition and flash back. Forms explosive air-vapour mixture.

#### 5.3. Advice for fire-fighters

Advice for fire-fighters: Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

#### Section 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions:** Eliminate all sources of ignition. Mark out the contaminated area with signs and prevent access to unauthorised personnel.

#### 6.2. Environmental precautions

Environmental precautions: Do not discharge into drains or rivers. Contain the spillage using bunding.

## 6.3. Methods and material for containment and cleaning up

Clean-up procedures: Mix with sand or vermiculite. Neutralise with dilute hydrochloric acid. Use industrial

vacuum cleaner to remove material. Wash the spillage site with large amounts of water.

#### 6.4. Reference to other sections

Reference to other sections: Refer to section 8 of SDS.

## Section 7: Handling and storage

#### 7.1. Precautions for safe handling

Handling requirements: Ensure there is sufficient ventilation of the area. Avoid direct contact with the substance. Smoking is forbidden.

#### 7.2. Conditions for safe storage, including any incompatibilities

**Storage conditions:** Store in a cool, well ventilated area. Keep away from sources of ignition. Keep container tightly closed. Ensure lighting and electrical equipment are not a source of ignition.

tightly closed. Ensure lighting and electrical equipment are not a source of ignition

#### 7.3. Specific end use(s)

Specific end use(s): No data available.

# 9.1. Information on basic physical and chemical properties

State:AerosolColour:Typical.

## LINE MARKER XYLENE FREE YELLOW

 Page: 6

 Odour:
 Characteristic odour

 Oxidising:
 Non-oxidising (by EC criteria)

 Solubility in water:
 Insoluble

 Flammability limits %: lower:
 0.8

 Flash point°C:
 -10

## Section 10: Stability and reactivity

#### 10.1. Reactivity

Reactivity: Stable under recommended transport or storage conditions.

10.2. Chemical stability

Chemical stability: Stable under normal conditions.

## 10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

Decomposition may occur on exposure to conditions or materials listed below.

## 10.4. Conditions to avoid

Conditions to avoid: Sources of ignition. Flames. Heat.

#### 10.5. Incompatible materials

Materials to avoid: Strong oxidising agents. Mineral Acids. Strong alkalis.

## 10.6. Hazardous decomposition products

Haz. decomp. products: In combustion emits toxic fumes of carbon dioxide / carbon monoxide.

#### Section 11: Toxicological information

#### 11.1. Information on toxicological effects

#### Hazardous ingredients:

#### N-BUTYL ACETATE

#### **Relevant hazards for product:**

| Hazard                        | Route | Basis                 |
|-------------------------------|-------|-----------------------|
| Serious eye damage/irritation | OPT   | Hazardous: calculated |
| STOT-single exposure          | -     | Hazardous: calculated |

#### Symptoms / routes of exposure

Skin contact: There may be irritation and redness at the site of contact.

Eye contact: There may be irritation and redness. Corneal burns may occur.

**Ingestion:** Nausea and stomach pain may occur. There may be vomiting and diarrhoea. There may be loss of consciousness. Convulsions may occur.

Inhalation: Exposure may cause coughing or wheezing. There may be congestion of the lungs causing severe shortness of breath. There may be loss of consciousness. Convulsions may occur.

Delayed / immediate effects: Immediate effects can be expected after short-term exposure.

## Section 12: Ecological information

|--------------------------------|------|------|------|--|

#### 12.2. Persistence and degradability

#### Persistence and degradability: Biodegradable.

#### 12.3. Bioaccumulative potential

Bioaccumulative potential: No bioaccumulation potential.

## LINE MARKER XYLENE FREE YELLOW

## 12.4. Mobility in soil

Mobility: Readily absorbed into soil.

## 12.5. Results of PBT and vPvB assessment

PBT identification: This product is not identified as a PBT/vPvB substance.

#### 12.6. Other adverse effects

Other adverse effects: Dangerous for the environment if discharged into watercourses.

#### Section 13: Disposal considerations

13.1. Waste treatment methods

| Disposal operations:   | Transfer to a suitable container and arrange for collection by specialised disposal |
|------------------------|---|
|                        | company.  |
| Disposal of packaging: | Empty containers must not be burned because of explosion hazard.                    |
| NB:                    | The user's attention is drawn to the possible existence of regional or national     |
|                        | regulations regarding disposal.   |

#### Section 14: Transport information

14.1. UN number

UN number: UN1950

14.2. UN proper shipping name

Shipping name: AEROSOLS

14.3. Transport hazard class(es)

Transport class: 2

14.4. Packing group

14.5. Environmental hazards

### Environmentally hazardous: No

Marine pollutant: No

14.6. Special precautions for user

Special precautions: No special precautions.

Tunnel code: D

Transport category: 2

## Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Specific regulations: Not applicable.

## 15.2. Chemical Safety Assessment

**Chemical safety assessment:** A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.
