

Premier Burncare Kit

Provides effective and fast treatment for burns, scalds and sunburn - whether you're at home, in the office, or on holiday

Emergency care - wherever you may be
Burns can happen anywhere. In the home, in the office or even when you are on holiday. To give yourself, your loved ones or colleagues the best emergency care, at the time it is needed the most, the Premier Burncare Kit is the perfect solution.

Vital early attention is essential

When someone suffers a burn or scald from flame, steam, hot water, sun or other intense heat, the early attention is vital to both ease the pain and to reduce skin damage. Cooling the area for 20 minutes is recommended and the Burnshield Sterile Hydrogel (wet) product is perfect to provide this essential physical protection.

Be prepared - with sterile, non-toxic and non-irritant products

The superb range of products in our burncare selection are intended to provide relief from the pain of burns and scalds, minimise

skin damage and prevent burns from progressing into deeper layers of skin. All of our burncare treatments are sterile, non-toxic and non-irritant.

Comprehensive range of burncare products all in one box

The Burnshield Premier Burncare Kit includes contour dressings, ideal for treating large or small burn areas. They are all sterile for maximum protection against infection and many are saturated with cooling hydrogel, for both adults and children, including dressings especially designed for the face, neck, torso and limbs.

A variety of kits available - to suit all needs

Our burncare range includes a variety of kits suitable for the emergency services and high-risk workplaces such as hotels, restaurants, canteens and kitchens. We also supply more compact but equally comprehensive kits for use in the home and on holiday.

Highly visible box - easily transportable

The Premier Burncare Kit comes in a durable red polypropylene box, which makes it highly visible and easy to identify. It is easy to transport and therefore ideal for domestic use, when it can accompany people to a holiday home or weekend retreat.
