

F162 : DYMAMITE

SOLVENT FREE HEAVY DUTY CLEANER

DYMAMITE	F162
-----------------	-------------

solvent free heavy duty cleaner

description	Powerful formulation, lifts the heaviest industrial soil. Cuts through grease and fats. Suitable for use in food preparation areas.
application	DYMAMITE is designed for use as a heavy duty, general purpose hard surface cleaner. Since it does not contain solvent it is ideal for cleaning food preparation areas.
directions	The rate of dilution is dependent on the type and degree of soiling to be removed. For removal of heavy deposits of grease and fat, dilute 1 part DYMAMITE with 10 parts of water. In food areas, dilute 1 part DYMAMITE with 30 parts of water to disperse and remove deposits of fat, food shortenings, etc. For cleaning lightly soiled polished floors and for general purpose hard surface cleaning, dilute 1 part DYMAMITE with up to 120 parts of water. In all of the cleaning operations, DYMAMITE may be applied by mop, spray or brush. The cleaned surface should be rinsed with water and allowed to dry.

Technical

Composition	A blend of anionic and nonionic surfactants and sequestering agents
Appearance	Clear liquid
Colour	Colourless
Cloud Point	>60
Density	1.066
pH	>13.5
Fragrance	Unfragranced
Stability	2 years in a unopened container

Biodegradability All surfactants contained in Selden Products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO₂ and water.

Product is for professional use only.
