Elevate your washroom experience with trusted and familiar Scott® Control™ washroom solutions, designed to support washroom hygiene compliance control in the workplace. Where consistent hand hygiene and efficiency are priorities, choose Scott® Control™ blue interfold hand towels to minimise risk and help support contamination control. Scott® Control™ blue paper towels are detectable for hand drying in contamination critical environments. Unique Airflex™ Technology in these disposable hand towels results in superior absorbency, making drying hands an efficient and effective process and reducing the risk of cross contamination. Interfold paper towels, or V fold hand towels as they are also known, are designed to dispense one paper hand towel at a time. This single sheet dispensing method is designed to improve hand hygiene by minimising the risk of contamination when hand drying as the user only touches the sheet they're using. Dispensing one paper towel at a time is also designed to improve cost in use as the user only takes the hand towels they need when drying hands. Our touch free dispensers reduce the risk of cross contamination. These hand towels feature compression technology for increased sustainability through reduced storage and transportation. Compatible with a variety of Kimberly-Clark paper towel dispenser options: Aquarius™ dispensers in white or black (product codes 6945 and 7171), a high capacity dispenser (code 9962) and a high image stainless steel dispenser (code 8971). FSC and European Ecolabel certified for environmental assurance. Food contact certified. One clip of Scott® Control™ blue interfold hand towels contains 240 V fold blue paper towels. Each 1 ply paper towel measures 31.5cm x 20cm.

One clip of 1 ply blue interfold hand towels contains 240 V fold blue paper towels; 15 x 240 blue, 1 ply sheets (3,600 total)

About Scott®

Very few locations within a facility impact satisfaction as much as the washroom. A negative experience can have a truly damaging effect on your reputation. Scott®, one of the world's most recognised washroom brands, offers solutions designed to help you increase productivity, enhance your image, and improve employee, patient and guest satisfaction.
